

Richard Thripp for Congress

CONGRESSIONAL CAMPAIGN

WHY VOTE FOR RICHARD THRIPP?

2020-02-22 | RICHARD THRIPP | LEAVE A COMMENT

Here are a few reasons to vote for Richard Thripp on 8/18/2020 (Democratic primary) and 11/03/2020 (general election) for Florida's 6th Congressional district (Volusia, Flagler, and parts of St. Johns and Lake counties), or by mail or early voting:

- ✓ Will fight for the Green New Deal to make better technologies cheap via scale
- ✓ Will fight for Bernie Sanders's Medicare for All to help all Americans
- ✓ Won't cut Social Security
- ✓ A check on Donald Trump and the lawless Republicans
- ✓ Unlike other candidates, born in Daytona Beach and has always lived in the district
- ✓ Supports ending war and knows there is **nothing to win** in the Middle East
- ✓ Accomplished college instructor and financial educator who values education
- ✓ Will fight vested interests on the climate crisis to save Florida's future
- ✓ Will expand the IRS with the resources to collect from high earners and big business
- ✓ Will not dial for dollars or be bought and paid for by anyone
- ✓ Will fight against corporate welfare, subsidies, and giveaways to the rich
- ✓ Constituent-focused and will open a district office in mid-town Daytona Beach

My Republican opponent:

- X Has the “guts” to slash Social Security and Medicare
- X Donald Trump’s favorite Congressman
- X Supports endless and costly militarism in the Middle East and beyond
- X Indebted to special interests and corporate donors such as NASCAR
- X Lives in a different Congressional district
- X Spews falsehoods about the “socialism” bogeyman
- X Supports corporate welfare and giveaways to the rich (Tax Cuts and Jobs Act)
- X Opposes women’s healthcare and choice
- X Against expanding Medicaid and wants to repeal Obamacare
